

## 2023 Purina Chick Days Information

Place your orders early as we have pre-ordered a specific number of chicks of each breed for each delivery date. Certain varieties may sell out for some delivery dates. Visit our website at [www.nissleyfeed.com](http://www.nissleyfeed.com) to see an order form that will list the breeds available for each delivery date. Submitting your order with payment over the phone, or in the store, will RESERVE your chicks. ALL chicks MUST be paid for in advance when you place your order! Prices will increase for all orders submitted after February 25, 2023.

The form found on our website is the most up to date version of our order sheet! Breeds are added and delivery dates are updated on that sheet as the changes are made.

All chicks are female unless marked (Straight Run), and the chicks are all 1-2 days old. Sexing of the chicks is done by the hatchery, and they have a 90% accuracy guarantee, so there is a chance that you may get a rooster.

We will call you to let you know that your ordered chicks have arrived. **Birds may arrive one day BEFORE or AFTER the listed date**, so please wait until you receive a call from us to come pick up your order. Orders must be picked up within 24 hours of our call. When you come to pick up your chicks bring an appropriately sized box with you to hold the number of chicks that you ordered. All pre-ordered chicks that are not picked up by close of business on Saturday of their arrival week will not be held longer and will be available for anyone to purchase on Monday morning. Please note: We are closed on Sundays.

We are dealing with LIVE animals and a variety of unforeseen things can happen and the chicks may not be available on the day that we have scheduled. We appreciate your understanding and patience. We will do our best to work with you and accommodate any requests.

**NO GUARANTEE ON THE CHICKS ONCE THEY LEAVE THE STORE!**
